Dear Posey:

Received your letter confirming the date of June 13th in Newark.

I have just received word from the park the lights will not be ready for us to play the 15th of May. If you are not doing anything would you want to come up and play twilight. We need another game anyway. It may be better than doing nothing. If you are interested let me know right away, so I can get busy about it.

I hope the team is coming along nicely. We are having a lot of injuries.

I am sure you heard about Rickey signing Newcombe and Campanella. I have just sent him a letter on the advice of my attorney. I am speaking of The Eagles and Newcombe only in it. I think we look very stupid to sit tight and not open our mouths with the stuff he is pulling. I am going to send all the members a copy of the letter, as soon as the time is ripe. I am asking him for an interview to discuss the matter with him. I hope the league will back me up, but I am sure when you see the letter they will do so. Has Tom or Dr. Martin made any effort to get in touch with the lawyer Com. Chandler advised them to? I doubt it very much, but it should have been done by now.

I forgot you to send in league dues for May. Please take care of this. Will be looking to hear from you.

Very Truly Yours
